# EXTRA CENSUS BULLETIN.

No. 13.

WASHINGTON, D. C.

October 27, 1891.

## AGRICULTURE.—TOBACCO.

DEPARTMENT OF THE INTERIOR,  
CENSUS OFFICE,

WASHINGTON, D. C., October 20, 1891.

SIR:

The report herewith presented contains the statistics of tobacco production in the United States in the year 1889, by counties, and also, for convenience of comparison, those for the years 1879, 1869, and 1859, as they appear in the reports of the Tenth, Ninth, and Eighth Censuses. The report for 1889 is based upon the returns of the census enumerators, supplemented by an extensive correspondence and by investigations in the field conducted by Prof. THOMAS N. CONRAD, special agent, under the direction of Mr. JOHN HYDE, special agent in charge of the Division of Agriculture.

Tobacco is produced, to a greater or less extent, in 42 states and territories, the only nonproducing states being Idaho, Nevada, Rhode Island, and Wyoming, and the nonproducing territories, Oklahoma and Utah.

The entire crop of the country amounted in 1889 to 488,255,896 pounds, the number of planters being 205,862, and the area devoted to tobacco culture, exclusive of counties cultivating less than 1 acre, 692,990 acres, or 1,082.80 square miles. The area in cultivation was, however, very unequally distributed, Kentucky having 39.62 per cent of the total acreage and producing 45.44 per cent of the entire crop, and the 6 states next in rank of production 50.16 per cent of the acreage and 42.49 per cent of the crop, while the 20 states and territories having the smallest production had less than 900 acres in tobacco and yielded an aggregate of only 451,025 pounds, or less than one-tenth of 1 per cent of the entire crop.

The average production per acre of the entire country was 705 pounds, ranging among the seed-leaf states producing 5,000,000 pounds or upward from 854 pounds per acre in Ohio to 1,402 pounds per acre in Connecticut, and in the more important of the states in which the manufacturing and export varieties predominate from 375 pounds per acre in North Carolina to 830 pounds per acre in Missouri.

The average area cultivated by each planter was 3.37 acres, and the average production of each planter 2,372 pounds.

The total value of the crop to the producers, estimated on the basis of actual sales, was \$34,844,449, an average of 7.1 cents per pound, or \$50.28 per acre. The average price per pound received by the producer in states producing 5,000,000 pounds or upward ranged from 4.5 cents in Missouri and 4.7 cents in Maryland to 12.8 cents in Connecticut and 14.2 cents in North Carolina. The product of Louisiana averaged 25.2 cents per pound to the producer.

Although the total reported acreage in tobacco shows an increase of 8.48 per cent upon that in 1879, there is a decrease of 91 in the number of tobacco-producing counties, there being now only 1,674, as compared with 1,765 in 1879. It is likewise worthy of note that the proportion borne by the crop of Kentucky to the entire production of the country is steadily increasing, having advanced from 24.90 per cent in 1859 and 36.20 per cent in 1879 to 45.44 per cent in 1889, as already stated.

The leading tobacco-producing county of the entire country is Lancaster county, Pennsylvania, which yielded in 1889 19,217,800 pounds, worth \$1,349,090 to the producers. Christian and Henderson counties, Kentucky, each produced over 10,000,000 pounds, as did also Dane county, Wisconsin, and Pittsylvania county, Virginia. 17 other counties, 9 of which are in Kentucky, produced between 5,000,000 and 10,000,000 pounds each.

The final report on tobacco will treat of the progress and present condition of the industry, of home and foreign markets, the distribution of exports, etc., and will also contain summarized statements by leading tobacco producers throughout the country as to the cultivation, curing, and marketing of leaf tobacco, the varieties most profitable for cultivation, fluctuations in production, diseases and other destructive agencies, the effects of importation, etc.

Very respectfully,

ROBERT P. PORTER,  
*Superintendent of Census.*

The SECRETARY OF THE INTERIOR.

# STATISTICS OF TOBACCO PRODUCTION.

## SUMMARY OF STATISTICS OF TOBACCO PRODUCTION, BY STATES AND TERRITORIES.

STATES AND TERRITORIES.	1889.					1879.		1869.	1859.

District of Columbia						2	1,400		15,200

a In the respective crop totals the entire tobacco product of the different states has been included, but in the statement of acreage counties having a total of less than 1 acre in tobacco have not been included. The necessary adjustments have, however, been made in the figures showing the average yield per acre.

b Less than 1 acre.

c Dakota territory, as then constituted, produced 10 pounds in 1859.
